

CORE PLATFORM ENDPOINTS

These endpoints manage fundamental data about users, teams, and structures within the platform:

ATHLETE USERS

Information about registered athletes.

- GET** List athlete users by association
`/api/external/associations/{association_id}/athlete_users`
- GET** Get athlete user by association
`/api/external/associations/{association_id}/athlete_users/{athlete_user_id}`
- GET** List athlete users
`/api/external/organisations/{organisation_id}/athlete_users`
- POST** Add athlete user
`/api/external/organisations/{organisation_id}/athlete_users`
- GET** Get athlete user
`/api/external/organisations/{organisation_id}/athlete_users/{id}`
- PUT** Update athlete user
`/api/external/organisations/{organisation_id}/athlete_users/{id}`
- PATCH** Activates athlete user
`/api/external/organisations/{organisation_id}/athlete_users/{id}/activate`
- PATCH** Deactivate athlete user
`/api/external/organisations/{organisation_id}/athlete_users/{id}/deactivate`

QUESTIONNAIRES

Forms and structured questions used for data collection.

- GET** List questionnaires by athlete
`/api/external/organisations/{organisation_id}/athlete_users/{athlete_user_id}/questionnaires`
- POST** Add questionnaire
`/api/external/organisations/{organisation_id}/athlete_users/{athlete_user_id}/questionnaires`
- GET** Get questionnaire
`/api/external/organisations/{organisation_id}/athlete_users/{athlete_user_id}/questionnaires/{questionnaire_id}`

STAFF

Details about staff members.

- GET** Get staff user
`/api/external/organisations/{organisation_id}/staff/{id}`
- GET** List staff users
`/api/external/organisations/{organisation_id}/staff`

SQUADS

Team and squad information.

- GET** Get squad
`/api/external/organisations/{organisation_id}/squads/{id}`
- GET** List squads
`/api/external/organisations/{organisation_id}/squads`

POSITIONS

Player position data.

- GET** List positions
`/api/external/organisations/{organisation_id}/positions`
- GET** Get position
`/api/external/organisations/{organisation_id}/positions/{id}`

QUESTIONNAIRE ANSWERS & TEMPLATES

Responses to questionnaires and predefined templates.

- GET** List answers by questionnaire template
`/api/external/organisations/{organisation_id}/squads/{squad_id}/questionnaire_templates/{questionnaire_template_id}/answers`
- GET** List questionnaire templates
`/api/external/organisations/{organisation_id}/questionnaire_templates`
- GET** Get questionnaire template
`/api/external/organisations/{organisation_id}/questionnaire_templates/{id}`

CORE PLATFORM ENDPOINTS

These endpoints manage fundamental data about users, teams, and structures within the platform:

TRAINING VARIABLES

Key training attributes.

GET

Get training variable
/api/external/organisations/{organisation_id}/training_variables/{id}

GET

List training variables
/api/external/organisations/{organisation_id}/training_variables

ORGANIZATIONS

Details about organizations using the platform.

GET

Get organisation
/api/external/organisations/{id}

GET

List organisations
/api/external/organisations

TRAINING VARIABLES ANSWERS

Data related to training variable responses.

GET

List training variable answers by athlete
/api/external/organisations/{organisation_id}/athlete_users/{athlete_user_id}/training_variable_answers

POST

Add training variable answers
/api/external/organisations/{organisation_id}/athlete_users/{athlete_user_id}/training_variable_answers

GET

Get training variable answer by athlete
/api/external/organisations/{organisation_id}/athlete_users/{athlete_user_id}/training_variable_answers/{training_variable_answer_id}

GET

List training variable answers
/api/external/organisations/{organisation_id}/training_variable_answers

GET

Get training variable answer
/api/external/organisations/{organisation_id}/training_variable_answers/{training_variable_answer_id}

GET

Get training variable answers by questionnaire
/api/external/organisations/{organisation_id}/athlete_users/{athlete_user_id}/questionnaires/{questionnaire_id}/training_variable_answers

PERFORMANCE MEDICINE ENDPOINTS

These endpoints handle medical and health-related data:

ILLNESS/ILLNESSES OCCURRENCES

Recorded instances of illnesses.

GET

Get illness occurrence

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/illness_occurrences/{id}

GET

List illness occurrences

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/illness_occurrences

ILLNESS/ILLNESSES

Medical conditions affecting athletes.

GET

Get illness

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/illnesses/{id}

GET

List illnesses

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/illnesses

INJURY/INJURIES OCCURRENCES

Specific injury events affecting athletes.

GET

Get illness occurrence

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/illness_occurrences/{id}

GET

List illness occurrences

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/illness_occurrences

INJURY/INJURIES

Injuries tracked within the system.

GET

Get injury

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/injuries/{id}

GET

List injuries

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/injuries

CHRONIC ISSUES

Long-term medical concerns.

GET

Get chronic issue

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/chronic_issues/{id}

GET

List chronic issues

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/chronic_issues

ISSUE STATUSES

Status updates for medical conditions or injuries.

GET

List issue statuses

/api/external/organisations/{organisation_id}/issue_statuses

GET

Get issue status

/api/external/organisations/{organisation_id}/issue_statuses/{id}

ATHLETE AVAILABILITIES

Records of athlete participation availability.

GET

List athlete availabilities

/api/external/organisations/{organisation_id}/athletes/availabilities

CHRONIC ISSUES OCCURRENCES

Tracking of chronic issue events.

GET

Get chronic issue occurrence

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/chronic_issue_occurrences/{id}

GET

List chronic issue occurrences

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/chronic_issue_occurrences

CONDITIONAL ANSWERS

Logic-based responses used in assessments.

GET

List conditional answers by injury occurrence

/api/external/organisations/{organisation_id}/athlete_users/{athlete_id}/injury_occurrences/{injury_occurrence_id}/conditional_answers

COACHING & PERFORMANCE ENDPOINTS

These endpoints focus on training and performance tracking:

SESSIONS PARTICIPANTS

Athletes or staff involved in sessions.

GET

List participants by session
/api/external/organisations/{organisation_id}/sessions/{session_id}/participants

GET

List participants
/api/external/organisations/{organisation_id}/sessions/participants

THIRD-PARTY SOURCES

Data sources for performance tracking.

GET

List third party sources by organisation
/api/external/organisations/{organisation_id}/third_party_sources

GET

List third party sources by squad
/api/external/organisations/{organisation_id}/squads/{squad_id}/third_party_sources

SESSIONS

Training or match sessions.

GET

List sessions
/api/external/organisations/{organisation_id}/sessions

GET

Get session
/api/external/organisations/{organisation_id}/sessions/{id}

THIRD-PARTY METRICS

External performance metrics integrated into the system (i.e GPS, Vald)

GET

List third party metrics
/api/external/organisations/{organisation_id}/squads/{squad_id}/third_party_metrics

METRIC NAMES

Names of recorded performance metrics.

GET

List metric names
/api/external/organisations/{organisation_id}/third_party_sources/{third_party_source_id}/metric_names

GET

List metric names by squad
/api/external/organisations/{organisation_id}/squads/{squad_id}/third_party_sources/{third_party_source_id}/metric_names

KITMAN LABS

LEAGUE OPERATIONS ENDPOINTS

These endpoints track official league operations and schedules:

FIXTURES

Match and event schedules.

GET

List association fixture activities
/api/external/associations/{association_id}/fixtures/{id}/activities

GET

List association lineups
/api/external/associations/{association_id}/fixtures/{fixture_id}/lineups

GET

Get association fixture
/api/external/associations/{association_id}/fixtures/{id}

GET

List association fixtures
/api/external/associations/{association_id}/fixtures

GET

List organisation fixture activities
/api/external/organisations/{organisation_id}/fixtures/{fixture_id}/activities

GET

List organisation lineups
/api/external/organisations/{organisation_id}/fixtures/{fixture_id}/lineups

GET

Get organisation fixture
/api/external/organisations/{organisation_id}/fixtures/{id}

GET

List organisation fixtures
/api/external/organisations/{organisation_id}/fixtures

FIXTURES PARTICIPANTS

Players and staff involved in matches.

GET

List organisation participants by fixture
/api/external/organisations/{organisation_id}/fixtures/{fixture_id}/participants

GET

List association participants by fixture
/api/external/associations/{association_id}/fixtures/{fixture_id}/participants

GET

List organisation fixtures participants
/api/external/organisations/{organisation_id}/fixtures/participants

COMPETITIONS

Tournament or league event data.

GET

List competitions
/api/external/organisations/{organisation_id}/squads/{squad_id}/competitions

GET

Get competition
/api/external/organisations/{organisation_id}/squads/{squad_id}/competitions/{id}
