THE CHECKLIST

HOW TO EVALUATE ATHLETE MANAGEMENT SOFTWARE VS THE INTELLIGENCE PLATFORM

Use the checklist below to compare your **athlete management system**, along with the additional tools that support it, with iP: Intelligence Platform. Flexibility matters—but only if it stays consistent and easy to maintain as you grow.

Capability Support = ● Fully supported | ◐ Limited capability | ○ Not supported

		ATHLETE MANAGEMENT SOFTWARE	IP: INTELLIGENCE PLATFORM
ATHLETE MANAGEMENT SOFTWARE			
ATHLETE DATA MANAGEMENT	Centralized athlete profiles storing training, wellness, and medical information	◐	●
DATA COLLECTION WORKFLOWS	Forms and automated workflows for collecting athlete wellness, training, and medical data	◐	●
ATHLETE ACCESS & ENGAGEMENT	Mobile app access for athletes to submit wellness, RPE, sleep, and development feedback	◐	●
BASIC REPORTING	Standard reports for performance and medical staff	●	●
CROSS-SYSTEM INTEGRATIONS	Ability to integrate external monitoring and medical systems	◐	●

		ATHLETE MONITORING SYSTEMS	IP: INTELLIGENCE PLATFORM
ATHLETE MONITORING SYSTEMS			
DATA COLLECTION	Configurable capture of training load, performance metrics, and monitoring data	●	●
WORKLOAD MANAGEMENT	Monitor athlete workload across training and competition	●	●
GYM PROGRAM TRACKING	Track strength and conditioning programs and athlete progress	●	●
TESTING AND ASSESSMENTS	Capture physical testing and performance assessments	●	●
DATA INTEGRATION	Integrate athlete monitoring technologies such as GPS, wearables, testing platforms, and other performance data systems	◐	●

		ELECTRONIC MEDICAL RECORDS	IP: INTELLIGENCE PLATFORM
ELECTRONIC MEDICAL RECORDS FOR SPORTS			
MEDICAL DOCUMENTATION	Athlete injury records and medical history	●	●
INJURY AND ILLNESS WORKFLOWS	Structured medical workflows capturing detailed medical data	◐	●
TREATMENT AND REHABILITATION WORKFLOWS	Track treatment plans, rehabilitation progress, and return to play	◐	●
INJURY SURVEILLANCE	Pathology-level injury tracking and time-loss analysis	◐	●
CLINICAL INTEGRATIONS	Integrations with hospital systems and clinical providers	◐	●
CONCUSSION MANAGEMENT	Structured workflows for concussion tracking, evaluation, and return to play protocols	◐	●

		ATHLETE DEVELOPMENT SOFTWARE	IP: INTELLIGENCE PLATFORM
ATHLETE DEVELOPMENT SOFTWARE			
INDIVIDUAL DEVELOPMENT PLANNING	Structured athlete development plans across seasons	◐	●
GROWTH AND MATURATION TRACKING	Track biological development and maturation	◐	●
PRINCIPLES OF PLAY ALIGNMENT	Link training and development to tactical frameworks	○	●
SESSION PLANNING	Plan training sessions and coaching activities	◐	●

		SPORTS ANALYTICS PLATFORMS	IP: INTELLIGENCE PLATFORM
SPORTS ANALYTICS PLATFORMS			
DATA LINKAGE	Multi-disciplinary data is connected to create a unified player profile	◐	●
DATA AVAILABILITY	Structured, analysis-ready data across systems and departments	◐	●
INTEGRATED ANALYTICS	Embedded analytics across performance and medical datasets	◐	●
DECISION-READY OUTPUTS	Exportable reports, dashboards, and printable outputs that can be shared with staff and leadership beyond system users	○	●
CUSTOM ANALYTICS SERVICES	Expert-led custom analysis delivered as packaged services	◐	●
ORGANIZATION-WIDE VISIBILITY	Shared dashboards and insights connecting medical, performance, coaching, and leadership views	○	●
DATA HEALTH	Processes and technology ensuring reliable datasets	○	●
DATA EXPORT & API ACCESS	Secure data export and API access for customized research, advanced visualization, and external workflows	○	●

		SPORTS OPERATIONS PLATFORMS	IP: INTELLIGENCE PLATFORM
SPORTS OPERATIONS & COORDINATION			
CROSS-DEPARTMENT COLLABORATION	Shared workflows connecting medical, coaching, performance, and operations staff around the same athlete context	◐	●
WORKFLOW AUTOMATION	Configurable, multi-step workflows for injury management, readiness reviews, and performance processes	○	●
OPERATIONS MANAGEMENT	Single shared calendar tied to athlete status, availability, and participation—visible across departments	○	●
DATA GOVERNANCE	Role-based permissions, audit trails, and structured access to sensitive medical and performance data	◐	●
COMMUNICATION WORKFLOWS	Structured updates and shared visibility across departments within the system	◐	●
COMPETITION AND LINEUP OVERSIGHT	Centralized management of player status, eligibility, and competition readiness	○	●
